

F1 in Schools

As a team from Marlborough College Malaysia in the F1 in Schools campaign, Andúril will be a competitor in various competitions around Malaysia such as the Johor State Finals in late June and with the FOBISIA Malaysian Schools in Q4 this year. We will be exposed to thousands of national and international judges and fellow competitors around the country, as well as be the sole provider for the track and racing competition for Marlborough College Malaysia for future races.

As the F1 equipment manufacturing partner for Marlborough College Malaysia, we are responsible for creating the racing track, launcher, and timing equipment to coordinate the actual race event. We are prepared to offer prominent logo/branding/ advertisement placement throughout the entire F1 in School Racing Track which all other competing teams at Marlborough College Malaysia will be using, Gas Launching equipment, timing equipment, displays, dashboards etc. This will be the race equipment that all teams of Marlborough College will be using in preparation for the competition.
